Objective

A motivated Computer Science student with strong **problem solving skills** and a passion for **innovation**. Eager to apply **technical knowledge** and learn new skills while contributing to **meaningful projects** in a dynamic and growth-oriented environment.

Skills and Interests

- **Programming Languages:** C, C++ , Java, Python (Basics)
- **Web Development:** HTML, CSS, JavaScript
- **Cloud & Database:** AWS Cloud, SQL (MySQL,)
- **Cybersecurity:** Network security, Cisco certifications (Cybersecurity Essentials, CCNAv7)
- **Soft Skills:** Communication, Adaptability , Teamwork

Education

Gyan Ganga Institute of Technology & Sciences, RGPV , B.Tech in Computer Science Sept 2021 – June 2025
GPA: 7.08

- **Coursework:** Object Oriented Programming, Data Structures, Design and Analysis of Algorithms, Database Management System, Machine Learning, Operating Systems.

Experience

JPMorgan Chase Software Engineering Program (Virtual) Sept 2024

- Worked on tasks that simulate real-world software engineering challenges.
- Built a data visualization dashboard and implemented secure API functionalities.

AWS APAC Forage Virtual Internship (Virtual) Jan 2025

- Explored cloud computing solutions and best practices.
- Created a service to provide gradient across VS and VS add-ins, optimizing its performance via caching
- Worked on tasks involving AWS services, including deployment strategies, scaling applications, and optimizing cloud performance. Gained hands-on experience with AWS tools in a simulated environment.

Projects

Cyber Shield: Defending the Network

- The university network topology was analyzed, security controls evaluated, and recommendations for improvements to mitigate vulnerabilities.
- Tools Used: Cisco Packet Tracer, Network Security Principles.

E-commerce Website on AWS EC2

- Developed a fully functional e-commerce website with user authentication, shopping cart, and payment gateway. Hosted on AWS EC2.
- Tools used: HTML, CSS, JavaScript, MySQL, AWS EC2.

Interactive Chatbot

- Built a chatbot using React to handle real-time queries, improving customer interaction with dynamic responses and a user-friendly interface.
- Tools used: React, JavaScript, API Integration.

Certifications

- Programming Essentials in C, C++, Python – Cisco Networking Academy
- AWS Academy Machine Learning Foundations, cloud Foundations – AWS Academy
- Cybercops Associate, CCNAv7 Series – Cisco Networking Academy
- Introduction to Cybersecurity, Cybersecurity Essentials – Cisco Networking Academy
- AWS APAC Forage Virtual Internship Certificate

Positions of Responsibility

Participant | *International Student Workshop 2024 on Data Science using Python (Brain Vision)*

Gained hands-on experience in Python programming for data analysis.

- Fundamental techniques for data visualization and manipulation were learned.

College Technical Fest

- Coordinated technical events and competitions, achieving high student participation.
- Managed logistics, sponsorships, and communication among stakeholders.

Hobbies and Interests

- Chess
- Traveling
